Secure

Notebook lock for a maximum of security

Protect your Notebook effectively against theft – with Secure your equipment will be safe! With a unique locking mechanism, this lock made of reinforced steel fits itself to the latch of your Notebook and offers a maximum of security for nearly any type of common mobile computers! The lock is firmly attached to the Notebook at all times – until you choose to remove it. An additional feature of Secure is the revolving function between lock and cable, which can be turned by 360 degrees. Perfect flexibility and individuality while working are always ensured during use of the lock. The extra long cable with a length of 1.80m is highly stable and is flexible yet solid. It can easily be wrapped around a fixed object and points with an effective and easy protection of your Notebook. Secure is ideal for use at school, in the office, on the train or elsewhere.
